DESIGNED BY ONE OF THE
WORLD'S FINEST GOLF
COURSE ARCHITECTS

STANLEY THOMPSON

Stanley Thompson, the premier golf course architect of the 1920's and holder of the course record at the Peterborough Golf and Country Club, was engaged 1929-1931 to design an 18-hole layout. The original 6,300yard course had all the Thompson trademarks for strategic golf.

The bunkers were directional, and the mounds (mimicking the Peterborough Drumlins) deflected errant balls. The course snaked its way along the Trent-Severn Waterway in classic links style. Except for minor changes, the layout of the course remained virtually unchanged until 1990 when the Club rerouted its 4th, 5th and 6th holes.

TESTIMONIALS

"I was not really sure what to expect. Everyone has been so friendly and welcoming. The Course is in great condition and a good challenge for me and the guys I now play with. My wife and my daughter and her friend come with me some weekends and we just play for fun." *PM, New Member*

"I love Tuesdays at the Club – with the Women's Leagues that day. What a great opportunity to meet new people, learn new things, and have dinner and fun after golf is done for the day." *CER, Member for 16 years*

"I have such pride and love for this club. For over a hundred years PGCC has been the unofficial heart and soul of the Peterborough area. If there's something important or fun happening in this region, you can bet there's a connection to this place and our members. This spans golf, curling, hiking, cross-country skiing, and important social events such as fundraisers, meetings, weddings and other life celebrations. A special place indeed."
